

## PPC 2: PATIENT TRACKING AND REGISTRY FUNCTIONS

### Element A: Basic System for Managing Patient Data

#### Item 9: Email address

The screenshot shows the 'Modify Patient Information' window. The 'Telephone & E-Mail' section contains a table with the following data:

	Telephone Number / E-Mail	Comment
1.	Home Phone	
2.	Day Phone	
3.	Alternate Phone	
4.	Secondary Home	
5.	E-Mail	Anywhere.net

#### Item 10: Internal number for patient identification (see below)

The screenshot shows the 'DEMOGRAPHICS' window with the following data:

Field	Value
Last Name	TEST
First Name	ADULT
MI	
Birth date	01/01/1901
Sex	F
Marital Status	X
Blood Type	
Account ID	333652
Sec Sec#	--
Other ID#	121221211121
Race	

The 'Patient Lookup' window shows search criteria and a dropdown menu with 'Person Nbr' selected.

#### Item 11: Internal number for identification of a patient (see above)

The patient lookup allows you to look up by internal person number, medical record number or other ID number such as an external ID number.
