

PPC 9: ADVANCED ELECTRONIC COMMUNICAITON

Element B: Electronic Patient Identification

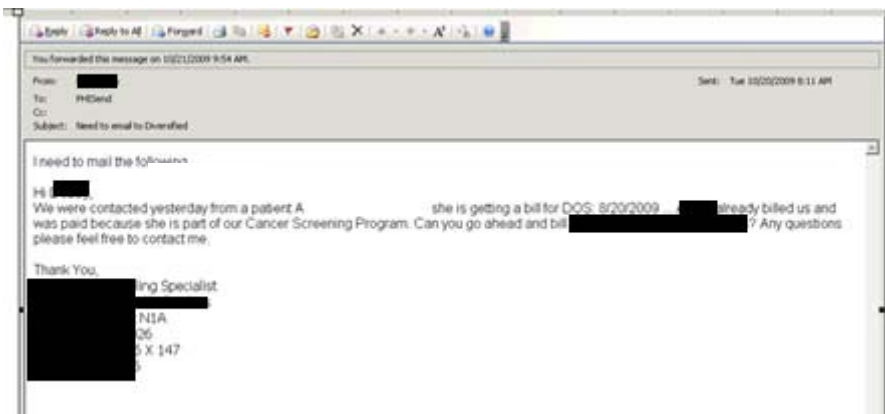

Most of these are secure email messaging in advocacy of our patients because so few of our low income patients have access to email.

Item 1: Patients needing Clinical review or action

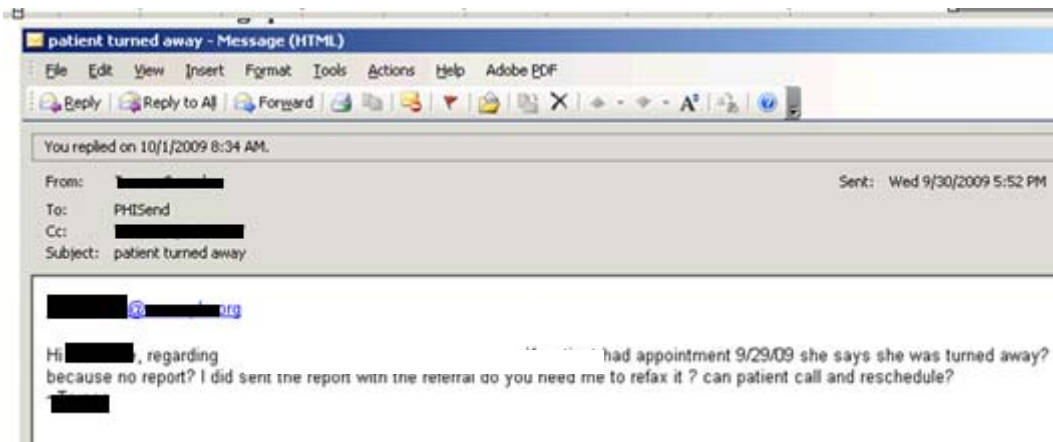

Item 2: Patients on a particular medication

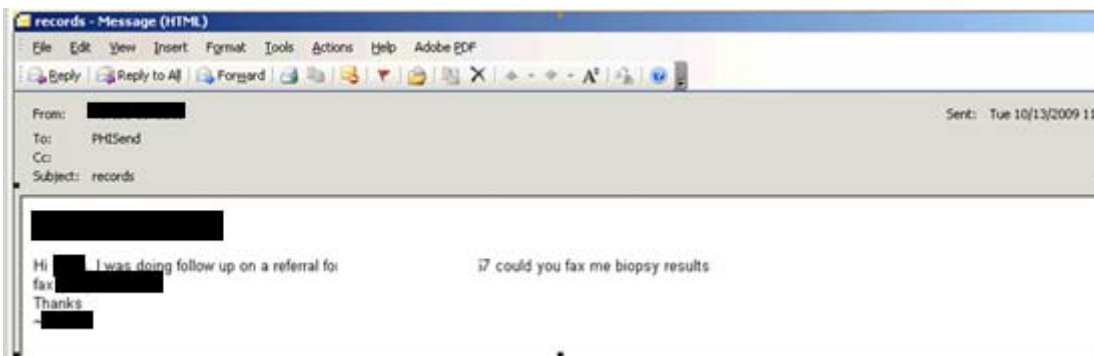

Item 3: Patients needing preventive care

Item 4: Patients needing specific tests

Item 5: Patients needing follow up visits

Item 6: Patients who might benefit from disease or case management
